Why us?

- Affordable, efficient and fully compatible with existing hardware investments
- Increase patient footfalls with reminders for drug prescription follow-up visits & check-ups
- Built with clinical know-how from experience in working with Singapore National Eye Center, National Healthcare group eye institute, Aravind Eye Hospital (India) among others
- Security compliances with Ministry of Health (Singapore) Personal Data Protection act
- Embedded clinical decision support, such as treatment recommendations based on case sheets & diet recommendations
